

Delivery Time

In our large warehouse in Würselen, we stock both complete valves as well as actuators and accessories to ensure quick delivery times.

Cost Savings

Thanks to our large stock volume, you receive all valves with the very good conditions.

3D Models

Due to our Solid Works database, we can provide you with the corresponding STEP-files or provide individual 3D-files.

Customization

We have the capability to customize your valves according to customer specifications. With our own manufacturing, we can meet (almost) all requirements.

Valve automation - Made to Fit

Quick closing 3-way ball valve

Control or Shutoff butterfly valves

Control Valves

If you are looking for high-quality automated valves, then you've come to the right place! We handle the automation **in-house** and it can be **customized to your needs**.

Whether you need valves for use in the chemical, pharmaceutical, or oil and gas industry, up to high-pressure hydrogen applications: we have the right solution for you.

We offer you expert consultation and handling. We are happy to provide you with valves **according to your specifications** or based on our standards.

We automate with pneumatic, electric, electric fail-safe to hydraulic actuators and implement **simple open/close** to ESD applications with **Moon instrumentation** and **digital feedback**.
